WEATHERPROOF SERIES

Covered for Safety

RANGE OVERVIEW

- Electrical networks are very sensitive to rain, moisture, and dust—which can cause serious safety issues to people.
- Himel provides the ideal residential weatherproof protection with Weatherproof Series.
- Designed with your safety in mind, every Weatherproof product is robust and durable.
- Our cases are available in 6 different colors and finishing, as being safe doesn't have to clash with a good architectural design.

COVER CASE IP12

Protect your everyday power socket with style.

Our attractive finishes can suit all types of interior and exterior designs.

WATERPROOF CASE IP55

Add an extra level of protection to your power socket with Himel IP55 protection.

Perfect solution for maximum security for outdoor usages.

Reliable made affordable.

IP RATING CHART

It is important to know which IP (Ingress Protection) level is required for the best protection of persons and equipment.

The “ingress” is the act of going in or entering—with the higher the number the better protection.

The format of the rating is IP followed by two digits.

The first digit represents the solids protection and the second digit represents the liquids protection.

1st Digit - SOLID

Degree of protection against solid objects

Example:

2nd Digit - LIQUID

Degree of protection against water

Reliable made affordable.
